

Pre-trip Fuel Surcharge Calculator

Legal Charterer Name / Company / Organization:

Agent:

Flight #:

Bold Fuel Cost Indicates Fuel Upload City

Flight Date	From City	To City	Fuel Price per Gallon	Contract Base Fuel Price / Gal	Calculated Cents From Fuel Base	Block Hour Surcharge Rate Factor	Fuel Surcharge Expense
Fri May 29-09	EWR	MST	\$5.11				
Thu Jun 11-09	MST	EWR	\$1.83				
Sat Jun 13-09	EWR	BNA	\$1.80				
			\$3.25	\$2.5000	75	\$14.00	\$21,242.20

PRE-TRIP FUEL SURCHARGE EXPENSE CALCULATION

Charterer acknowledges the charter contract TOTAL CHARTER PRICE is calculated upon the Base Fuel Price as set forth in the Aircraft Charter Agreement.

Charterer has agreed that a pre-trip Fuel Surcharge Expense amount applies in addition to the charter contract TOTAL CHARTER PRICE.

The Fuel Surcharge Expense amount shall be invoiced, to the Charterer prior to departure, if the average Fuel Price per gallon exceeds the Base Fuel Price per gallon.

Charterer has agreed to pay the invoiced Fuel Surcharge Expense amount by wire transfer or credit card prior to charter departure.

"Average Fuel Price" is defined as the total cost of all fuel to be consumed, (as quoted by fuel suppliers plus all fuel taxes incurred and fuel purchasing fees), divided by the estimated total gallons of fuel to be consumed during the charter flight (including all positioning and depositioning segments).

"Fuel Surcharge Expense" amount is defined as \$14.00 multiplied by the \$.01 increase in the Average Fuel Price per gallon above the Base Fuel Price per gallon multiplied by the estimated block hours for the entire charter.

Domestic fuel prices change each Tuesday and International fuel prices update monthly.
